Fix Georgia Pets is a 501(c)(3) non-profit animal welfare organization working with recognized low-cost spay/neuter organizations to combat the significant pet overpopulation in Georgia. Statistics show one homeless pet is euthanized about every 12 seconds, and Georgia has one of the highest "kill rates" in the country. FGP provides money to existing spay/neuter clinics, mobile units, and private practice veterinarians who in turn provide their services to people who could not otherwise afford to have their pet "fixed."
